Awards Dinner and Ceremony

601 4th Avenue South
Nashville, TN 37203

What is the EMS Star of Life?

The EMS Star of Life event is designed to honor the accomplishments of EMS personnel from all regions of Tennessee who provide exemplary life-saving care to **adult and pediatric** patients. The goal of the award is to recognize exceptional front-line care, with a focus on agencies and providers who are the initial care responders. The ceremony will include a presentation of the actual adult or pediatric patient scenarios and reunite the EMS caregivers with the individuals they treated. Recipients will be chosen from each of the eight EMS regions in the state. This is the premier event that will kick off EMS week within the state to recognize and honor our excellent prehospital providers.

Nominate an EMS provider!

If you know a rescue or medical team that merits consideration as the regional recipient of the EMS Star of Life Award, please complete the nomination packet that follows and return it to the TN EMSC office by **February 9, 2015**.

****Note:**

The nominating crew will be disqualified from receiving the Star of Life Award if the nominated crew has been recognized for this call in a prior ceremony that would prevent them from attending the Star of Life Award Ceremony.

Tennessee Emergency Medical Services for Children Foundation takes great pleasure in sponsoring the seventh annual:

EMS Star of Life Awards Dinner & Ceremony

Mr. Bobo had experienced chest pain and later developed into cardiac arrest. With his son responding to his home, he contacted 911. Mr. Bobo's son was given CPR instructions on the phone and provided CPR until Maury County Fire First Responders and Maury Regional EMS arrived on the scene to take over. The Cardiac arrest protocol was followed and the patient was transported by Ambulance and the patient made a complete recovery.

News story attached.

Please explain why you think the *EMS Star of Life Award* should be given to the nominees:

Upon the onset of Mr. Bobo's chest pain and then cardiac arrest, all nominees became on team. We stress the point of early recognition and notification, prior arrival instructions, first response and advanced life support care. With this case all were involved and proves that each effort was as important as the other. With taking away any part of the chain or team the outcome would have not been as good. The son's involvement and willingness to take phone instruction was as important as the ALS transport. He proved to be the team leader as as bystander and leading to the next steps to follow. Therefore, I feel the unity and teamwork of this group set an example not only locally, but widespread on the process for saving lives.
